

Thank you for seeking Health Services here .As medically indicated, increase the number of patients who are treated empirically for Chlamydia, at the time of treatment, based on exposure to Chlamydia, and other risk factors.

Thank you for seeking Health Services here . The health center is on the right track, and will continue to promote HIV testing, consistent condom use, and safe sex practices to all young men seen in the AHC, through social media posts, flyers in the health center, and with attendees at BROWN Project.

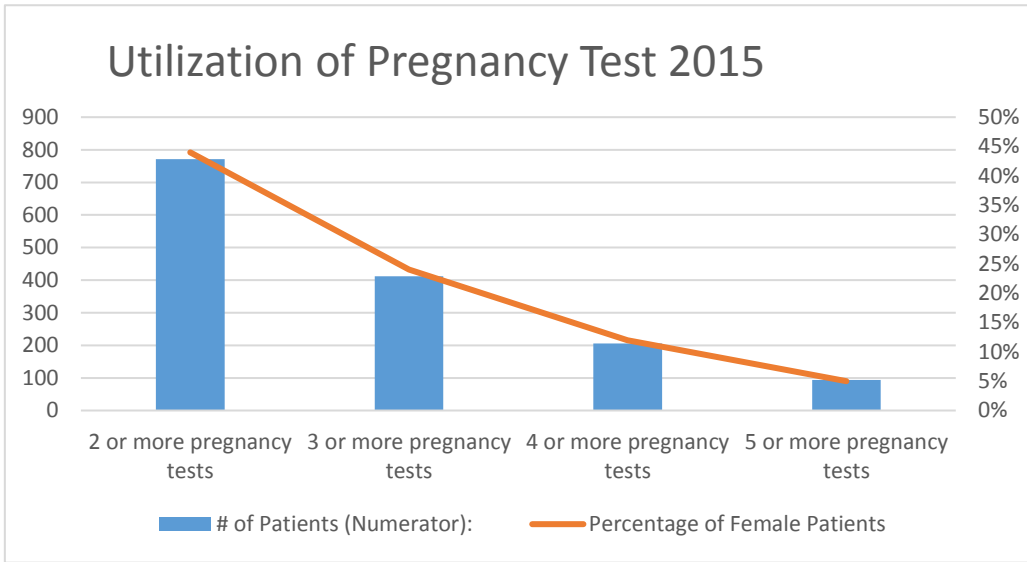

Weight Management Baseline -Measure- Goal

Thank you for seeking Health Services here. The AHC had an increase of 3% for the number of patients with a follow-up plan who are underweight or overweight with BMI charted. The goal was met.

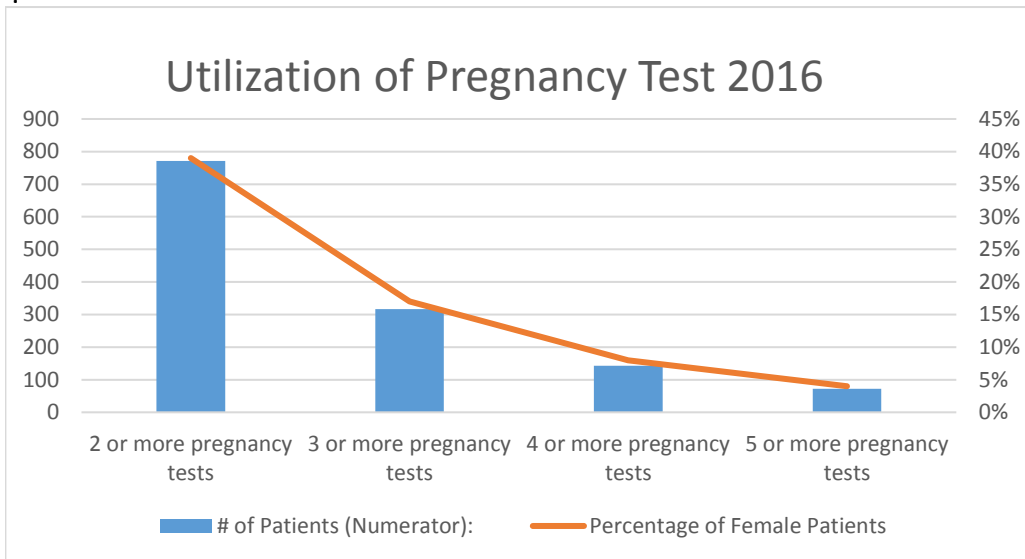

The - Door Adolescent Health Center
2015-2016

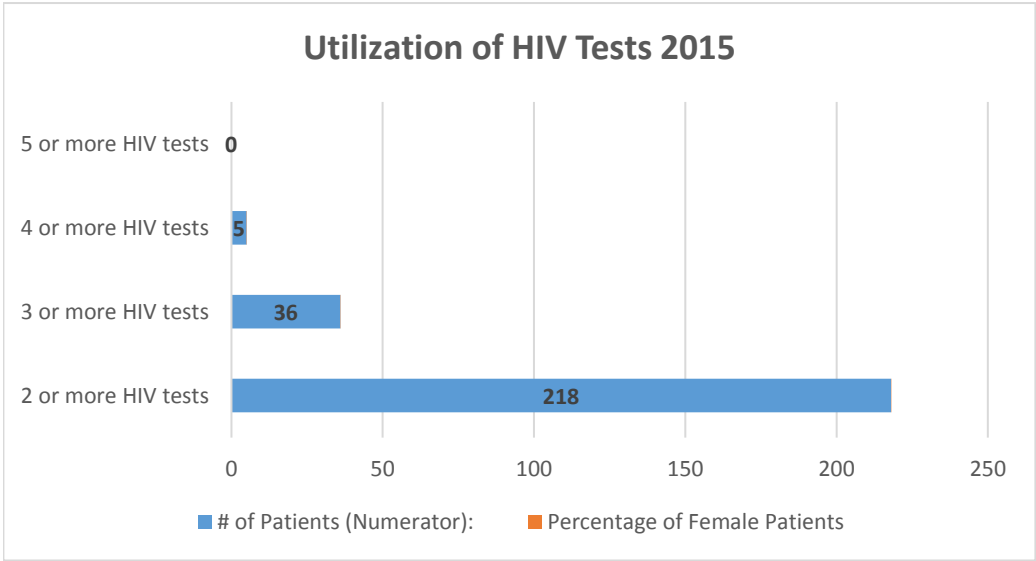

Thank you for seeking services at the Adolescent Health Center

The standard practice was to perform a pregnancy test for all female patient at every visit, regardless if the test was medically indicated for the individual patient
